Objective

Looking to obtain a position within a company that values my creativity, encourages collaboration, and enables powerful connections to support my growth as a developer.

Education

The Iron Yard Durham - *Ruby on Rails Graduate*

Spring 2016

Technical Skills

Ruby, Ruby on Rails, jQuery, JavaScript, HTML, CSS, Sass, SQL, AJAX, Git/github, Swift, AngularJS 1.x, Adobe Lightroom

Work Experience

Web developer, *EVI*

August 2016 - Current

Designing and creating an appointment based application to help a start-up company grow and manage their company. The company provides interpreters for health clinic's in situations where the doctor cannot communicate with the patient. This project uses the Ruby on Rails framework and has been setup with iOS and Android integration in mind.

Web developer, *MyHealthStyleApp*

July 2016 - Current

I am working directly with the CEO implementing front-end and back-end features within the legacy code environment in a Ruby on Rails framework.

Back-end developer, *Trind - Final Project*

Spring 2016

For our final project my team and I produced a social application, with a Ruby on Rails API for a back-end and an AngularJS 1.4 front-end, to connect people that want to make new friends nearby for events.

Server, *The Fearrington House Restaurant*

2011- 2016

As a small team we continually increased the standard of service by making adjustments to the service formula based on feedback from guests, management, and our team. This formula helped us maintain AAA Five Diamond Award status and we went from a Forbes 4-star rating to a 5-star rating.
